

Innovation and Functionality in One

The SC400 is ideally suited for daily indoor scrubbing and drying in light to medium tasks such as schools, institutions, hotels, smaller supermarkets and other retail outlets.

The innovative handle is equipped with a practical LED display showing battery and water levels. Electronic flow control buttons, safety switch and on/off lever gives complete control. Easy, safe and efficient.

With increased manoeuvrability, cleaning close to walls and other obstacles is made easy. The squeegee has been redesigned with a foot pedal lifting system instead of cables to further increase the reliability of the SC400, making the daily jobs more comfortable.

- 43 cm scrub deck and 21 litre tank provides the productivity of a large machine, without sacrificing manoeuvrability and ease of use
- All working functions have been integrated into the new fully adjustable handle, including a LED display to show battery and water levels, electronic flow control, safety switch and an easy to use lever system
- Redesigned squeegee with foot pedal lifting system for comfort and reliability
- The no tool deck adjustment makes it simple to increase/decrease the traction when required, improving the manoeuvrability
